THE DIRECT ROUTE**1****Check SK915 before leaving the aircraft**

Keep passports, SK915 boarding passes, and phones ready. Check airport screens and the SAS app for the live departure gate.

2**Follow transfer signs**

Stay airside and follow Transfer / Connections signs. Do not go to baggage claim, arrivals, customs, or the public exit.

3**Complete exit passport control**

You are leaving the Schengen area. Follow live signs for passport control and any document check; use the lane staff direct you to.

4**Go directly to the assigned gate**

Check the flight screens again after passport control. Walk straight to the SK915 gate and follow the boarding instructions.

IF THE PASSPORT QUEUE IS LONG

Show your SK915 boarding pass to airport or SAS transfer staff early and ask for help with the short connection. Keep moving toward the gate; do not stop for food or shopping.

IF YOU MAY MISS SK915

Tell airport or SAS staff immediately while you are still airside. Follow their instructions for the onward flight; do not leave the secure area or buy a separate ticket before speaking to SAS.

Remember: the scheduled connection is 75 minutes; usable time is shorter. Gates and airport procedures can change. Follow airport screens, staff, and the SAS app. No gate or terminal is assumed in this guide.
